### **DETAILED ACTION**

Claims 1-89 is pending in this application.

#### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on February 10, 2003 was noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.

#### ***Action Summary***

2. The rejection of claims 1-25, 32, 34-44 and 51-81 under 35 U.S.C. 103(a) over Hymes et al. in view of Ethier and Rolf et al. is hereby withdrawn.

#### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1-25, 32, 34-44 and 51-81 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Claim Objections***

4. Claim 10 contains the trademark/trade name VILMED™ M1585 W/HY, VILMED™ M1585H/HY, etc. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the

Art Unit: 1616

trademark/trade name is used to identify/describe a fluorocarbon solution and, accordingly, the identification/description is indefinite.

***Declaration under 37 CFR § 1.132***

5. The declaration filed by Alan C. Hymes with respect the assignment of the pending application and the prior art of reference to LecTec Corporation has been considered and thus the rejection of record is withdrawn.

***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-8, 11-14, 16 and 17 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 and 11-17 of U.S. Patent No. 6,495,158 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because the patent discloses a specific medicament and the pending application is drawn to a medicament comprising a topical dermatitis drug. It is the position of the examiner that an acne drug falls in the broad category of a topical dermatitis drug; therefore it is not patently distinct.

Art Unit: 1616

***Allowable Subject Matter***

7. Claims 9, 10, 15 and 18-78 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

8. Claims 1-8, 11-14, 16 and 17 stand rejected.
